With glorious photography and sharp writing, *Never Stop Driving* presents the case for the mental and social benefits of driving and engaging with automobiles. It also shows you—from dreaming about a car to living with it—how to jump in and get the most from your machine. There's never been a better time to go for a drive. Alfa Romeo and the Mille Miglia are two names packed with fascination and legend, both for the prestige of the Brescian race and the epic feats of the drivers and the Portello-built cars on the roads of the unforgettable Italian marathon. No other marque can boast of competing in such a large number Mille Miglias, and especially not of such a series of successful results "collected" by Alfa Romeo in the celebrated Race of the Red Arrow. To tell this long and spectacular story of road racing at its best is the authoritative pen of Andrea Curami, who relives the long and distinguished career of Alfa Romeo at the Mille Miglia, all illustrated by rare archive pictures.

Looks at the first six decades of the American sports car, from the early concepts to the sixth-generation incarnation of today, featuring rare and unpublished photographs from General Motors' archive.
