Unlike spring-powered styles, the AEG doesn ' t require you to manually cock the gun before each shot. Each electric airsoft gun from Airsoft GI is battery-powered and capable of rapid semi-automatic and full automatic firing. For these reasons, this style of airsoft gun is immensely popular among tournament players and field gamers. ...

The M4 carbine family of firearms was derived from the M16, which was in turn derived from the AR-15. Simply put, the M4 is a shorter variant of the M16A2. The real steel has selective fire and three-round burst options, while the M4A1 model can fire fully automatic. This training book has been developed from the ground up for beginners who know little about Airsoft AEG technology. As part of our Airsoft Technology Self-Paced Training Series, this book gives an introduction to the basic M4 AEG architecture. The primary goal of this book is to explain the various AEG technical concepts in very simple language. We believe that this book and its support materials have everything you need for an informative, interesting, challenging and entertaining Airsoft educational experience. As you read this book, if you have questions, send an e-mail to editor@airsoftpress.com; we will respond promptly. You are encouraged to visit our Web site, www.airsoftpress.com, regularly. We use the Web site to keep our readers and industry clients informed of the latest news on AirsoftPRESS publications and services. Please check the Web site occasionally for errata as well.

This training book has been developed from the ground up for beginners who know little about Airsoft AEG technology. As part of our Airsoft Technology Self-Paced Training Series, this book gives an introduction to the basic AK AEG architecture. The primary goal of this book is to explain the various AEG technical concepts in very simple language. The 2012 edition also covers those AK AEGs that use M4 butt stock for hosting battery and FET device (we use the APS ASK 208 for demonstration of this topic). Review questions and answers are included to assess your airsoft knowledge. We believe that this book and its support materials have everything you need for an informative, interesting, challenging and entertaining Airsoft educational experience.

As part of our Airsoft Technology Self-Paced Training Series, this book is for intermediate level airsofters who want to assemble their own M4 AEG from scratch. By building a new TM compatible M4 AEG from ground zero you are free from those limitations imposed by the out-of-the-box configuration. We show you how to use metal body parts to build a very solid external for the rifle. We then show you how to integrate an air-tight hopup system and high performance V2 gearbox to complete the build process. We believe that this book and its support materials have everything you need for an informative, interesting, challenging and entertaining Airsoft educational experience. As you read this book, if you have questions, send an e-mail to editor@airsoftpress.com; we will respond promptly. You are encouraged to visit our Web site, www.airsoftpress.com, regularly. We use the Web site to keep our readers and industry clients informed of the latest news on AirsoftPRESS publications and services. Please check the Web site occasionally for errata as well.

This book chronicles the history of the Protestant Reformation in sixteenth century Geneva under the leadership of John Calvin and is the best modern study of the Genevan Reformation available. The narrative of this work is enhanced by twenty-seven tables of extensive statistical data and eleven prosopographical appendices drawn from the author's extensive studies in the Geneva archives. His work shows the challenges faced by Calvin and his associates as they sought to proclaim and enact their Christian faith in a Genevan society that was facing severe problems with the influx of refugees from all over Europe.

This book is one out six IAEG XIII Congress and AEG 61st Annual Meeting proceeding volumes, and deals with topics related to the geotechnical and environmental site characterization. The theme of the IAEG/AEG Meeting, held in San Francisco from September 17-21, 2018, is Engineering Geology for a Sustainable World. The meeting proceedings analyze the dynamic role of engineering geology in our changing world. The meeting topics and subject areas of the six volumes are: Slope Stability; Case Histories, Landslide Mapping, Emerging Technologies; Geotechnical and Environmental Site Characterization; Mining, Aggregates, Karst; Dams, Tunnels, Groundwater Resources, Climate Change; Geologic Hazards: Earthquakes, Land Subsidence, Coastal Hazards, and Emergency Response; and Advances in Engineering Geology: Education, Soil and Rock Properties, Modeling.

This training book has been developed from the ground up for beginners who know little about Airsoft AEG technology. As part of our Airsoft Technology Self-Paced Training Series, this book gives an introduction to the basic MP5 compatible AEG architecture. The primary goal of this book is to explain the various AEG technical concepts in very simple language. REVIEW questions and answers are included to assess your MP5 AEG knowledge. We believe that this book and its support materials have everything you need for an informative, interesting, challenging and entertaining Airsoft educational experience.
