APC UPS Discharge problem reset / fix Apc Ups Calibration Manual
Follow these steps to do a proper manual calibration on your APC UPS: 1. Battery must be at 100% capacity when the Runtime Calibration is initiated/started. (charge the UPS for 24hours prior) 2.

Manual Runtime Calibration for APC UPS - APC UPS Blog ...
Calibration is initiated from Power Chute Business Edition, the Network Management Card, or the LCD Screen of the UPS (if so equipped). Depending on your Software, Firmware, or Hardware revision the exact wording may vary slightly: Business Edition - Click on the name of your UPS, then select Diagnostics.

How do I perform a Battery Calibration on my Smart-UPS?
Manual Calibration: This is the preferred method for "SU" series Smart-UPS, or any time that a User Commanded Calibration is not possible Stop the Power Chute software from running and disconnect the serial, USB, or Ethernet cable (s).

How do I perform a Battery Calibration on my Smart-UPS?
Apc Ups Calibration Manual During normal operation, your Smart-UPS will display an estimated runtime via the software, network management card, or LCD screen. This runtime will vary depending on the load attached, the battery charge, and the age of the batteries. Performing a calibration forces the UPS on battery, drains the battery down, and charges it back up. APC Smart-UPS 700 120V - APC ...

APC Smart-UPS 2200VA SUA2200i User Manual - Page 1 of 16 ...
A runtime calibration is required at initial start-up, when additional batteries are added, old batteries are replaced or if the estimated runtime is found to be inaccurate. Do not use old batteries (two or more years old), and new batteries together. Refer to the Perform a UPS Runtime Calibrationsection in this manual for calibration criteria.

Installation and Operation
If you do a manual calibration, you won't need to wait for the UPS to say 100% vs. 99% but you'll need to sit and watch the UPS and make sure you reapply AC power to it when its complete. The software command will discharge the UPS down to 10-20% and charge itself back up with out you sitting there.
