Disastrous Decisions: The Human and Organisational Causes ...

Most disasters are caused by human error—meaning wrong decisions. As drillers work and make decisions in teams, their interactions are obviously crucial, and ‘Group think’ or diffused responsibility can be fatal. Quote from Chapter 12: ‘Single point accountability for decisions needs to be a social reality, not just a legal

Disastrous Decisions : Andrew Hopkins : 9781921948770

In the latest of his safety books - Disastrous Decisions: The Human and Organisational Causes of the Gulf of Mexico Blowout – leading disaster analyst, Professor Andrew Hopkins, takes the reader into the realm of human and organisational factors that contributed to this disaster, going beyond all previous commentary on this topic. He acknowledges that it is important to know what people did, but even more important to know why they did it.

Disastrous Decisions – Process Safety Training

Humans make disastrous decisions. They hunt animals to extinction, deplete soil nutrients with extensive farming, and clear out wildlife habitats to build homes without considering the consequences. These decisions, though unintentional and unnoticeable at first, lead to problematic and even irreversible tribulations.
