discussion of the causes of paper and photograph deterioration and he teaches the reader to recognize the damage caused by such environmental conditions as temperature, humidity, fungi, insects and rodents, light exposure, pollutants, water damage, framing, lamination, fasteners and adhesives, fire and theft. Included in the long list of paper-based and photographic items which can be preserved and repaired are letters, books, posters, works of art on paper, certificates and awards, comic books, journals, scrapbooks, magazines, newspapers, stamps, report cards, sports cards, greeting cards, postcards, black and white and color photographs, negatives, slides and movie film. An Ounce of Preservation also includes information on the care and handling of paper-based items and photographic materials and techniques for the repair and cleaning of mildly damaged items. In addition, there are four appendices which provide a reference guide to damage/cause, a descriptive list of preservation supplies, where these supplies can be purchased and sources to contact for additional information on paper and photograph preservation. As an added bonus, the book includes a chapter on how to arrange paper and photographic collections for easy storage and retrieval. Also included is a preservation glossary, a bibliography, an index and 14 black and white photographs, which illustrate the different types of damage to paper-based items and photographs.

Named one of the best books of 2019 by The Economist and a New York Times Book Review Editors' Choice. A National Jewish Book Award finalist. "A superb and touching book about the frailty of ties that hold together places and people." --The New York Times Book Review An award-winning historian shares the true story of a frayed and diasporic Sephardic Jewish family preserved in thousands of letters For centuries, the bustling port city of Salonica was home to the sprawling Levy family. As leading publishers and editors, they helped chronicle modernity as it was experienced by Sephardic Jews across

the Ottoman Empire. The wars of the twentieth century, however, redrew the borders around them, in the process transforming the Levys from Ottomans to Greeks. Family members soon moved across boundaries and hemispheres, stretching the familial diaspora from Greece to Western Europe, Israel, Brazil, and India. In time, the Holocaust nearly eviscerated the clan, eradicating whole branches of the family tree. In *Family Papers*, the prizewinning Sephardic historian Sarah Abrevaya Stein uses the family 's correspondence to tell the story of their journey across the arc of a century and the breadth of the globe. They wrote to share grief and to reveal secrets, to propose marriage and to plan for divorce, to maintain connection. They wrote because they were family. And years after they frayed, Stein discovers, what remains solid is the fragile tissue that once held them together: neither blood nor belief, but papers. With meticulous research and care, Stein uses the Levys' letters to tell not only their history, but the history of Sephardic Jews in the twentieth century.

Contains ideas and instructions for using paper, fabric, and collage to turn family trees into works of art.

In Southern Africa, marriage used to be widespread and common. However, over the past decades marriage rates have declined significantly. Julia Pauli explores the meaning of marriage when only few marry. Although marriage rates have dropped sharply, the value of weddings and marriages has not. To marry has become an indicator of upper-class status that less affluent people aspire to. Using the appropriation of marriage by a rural Namibian elite as a case study, the book tells the entwined stories of class formation and marriage decline in post-apartheid Namibia.
