In hydroponics, water and a solution of nutrients do all of the work to make the plant grow...there is no soil! The picture to the right is an example of one of the most basic types of hydroponics systems, a passive irrigation setup. In this setup, the plants are held in place by a growing medium (in this case perlite is being used). The 2 liter soda bottle is used as the reservoir to hold the perlite as well as the water, which is in the bottom compartment.
