And in the night I will sing Your praise, my love. And in the morning I ' ll seek Your face, my love. And like a child I will dance in Your presence, Oh, let the joy of heaven pour down on me. I still remember the first day I met You, And I don ' t ever want to lose that fire, My first love. My first love is a rushing river,

Music, My First Love. At The Pie Studios in Los Angeles. I ' m consistently fascinated by how indelibly our young lives mark is, how we can spend a lifetime trying to understand, erase or change the rivers of programming carved into our being at the very beginning. And then there are the things we just happen to be and do and love, regardless of our experience.

A delightful journey through the psychology and science of music, WHY YOU LOVE MUSIC is the perfect book for anyone who loves a tune. Music plays a hugely important role in our emotional, intellectual, and even physical lives. It impacts the ways we work, relax, behave, and feel. It can make us smile or cry, it helps us bond with the people around us, and it even has the power to alleviate a range of medical conditions. The songs you love (and hate, and even the ones you feel pretty neutral about) don't just make up the soundtrack to your life--they actually help to shape it. In WHY YOU LOVE MUSIC, scientist and musician John Powell dives deep into decades of psychological and sociological studies in order to answer the question "Why does music affect us so profoundly?" With his relaxed, conversational style, Powell explores all aspects of music psychology, from how music helps babies bond with their mothers to the ways in which music can change the taste of wine or persuade you to spend more in restaurants. WHY YOU LOVE MUSIC will open your eyes (and ears) to the astounding variety of ways that music impacts the human experience.

Gives an introduction to classical music. Suitable for young children aged 5-7 years, this title asks readers to think about the different places in which we might hear music, whether it is in a concert hall, or just on television. They are then introduced to a selection of famous composers including Mozart and Beethoven.

Introduce your little one to six of the most iconic musical pieces in the western classical music canon in I Love Classical Music!

With a lifetime of experience, profound knowledge and understanding, and heartwarming appreciation, an internationally celebrated conductor and teacher answers the questions: Why should I listen to classical music? How can I get the most from the listening experience? A protégé of Leonard Bernstein--his colleague for eighteen years--and an eminent conductor who has toured and recorded all over the world, John Mauceri helps us to reap the joys and pleasures classical music has to offer. Briefly, we learn the way a musical tradition born in ancient Greece, embraced by the Roman Empire, and subsequently nurtured by influences from across the globe, gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia. Then Mauceri examines the music itself, helping us understand what it is we hear when we listen to classical music: how, by a kind of sonic metaphor, it expresses the deepest recesses of human feeling and emotion; how each piece bears the traces of its history; how the concert experience--a unique one each and every time--allows us to discover music anew. Unpretentious, graceful, instructive, this is a book for the aficionado, the novice, and anyone looking to have the love of music fired within them.

Artists new to the charity have become involved with the project and their relationship with Teenage Cancer Trust started here at Love Music Love Food.
