IEC & British Standard Fuses - Kirby Risk

The Cooper Bussmann range of
motor fuses are designed to

Access Free lec And British Standard Fuses Relay

meet the specific requirements necessary for motor protection. During the starting cycle of direct on-line motors, the fuse elements will reach a considerably higher temperature than during

Access Free lec And British Standard Fuses Relay

normal operation; (this is due to the high amount of current the motor will draw as it starts, typically, six times its normal load current value).
