Isn't it obvious? - CoCoAwareness

"Not" is an adverb, describing the linking verb, which links "it" to the predicate adjective "obvious." You would say "It is not obvious." The question form, in English, tends to switch the position of the subject ("it") and the verb (which is, in this case, the verb phrase "is not", which can become "isn't"). Thus, "Isn't it obvious?"

James' father was a wizard (who wasn't unemployed) with knobby knees and a warm smile. James' mother was otherworldly with pretty orange shawls and long glossy black hair. They both were delighted to show her the potions Mr. Potter made in the basement. James was ecstatic to show Lily their magic wands.

From a straightforward view of the evidence from these and other real-world examples, surely it's obvious: natural selection can **eliminate**, but **never create**. And we see that mutations are no help to the microbes-to-man evolutionary storyline either. This article was written by David Catchpoole and podcast produced by Joseph Darnell out of the CMI-USA office.

His new single "Isn't It Obvious?" is a sparkling slice of power-pop that examines a doomed asymmetrical relationship with a tune that harkens back to the classic jangle of Dwight Twilley, The Records and Shoes. Relentlessly upbeat and catchy as a box of fishhooks, it's the sort of three minute pop song that screams "summer" and "play it again."
