existing system at ETO to fail? This system was based on the assumption that direct costs and overhead are consumed in the same proportion for all product testing. However, this is not the case and therefore the system failed. For example, due to the implementation of the vendor certification and the just-in-time delivery, some products are already tested and do not need any further tests, and ETO faces a decreasing number ...

Case Summary: Seligram 6 ¶As a separate center, the rates are so high, that it is unlikely that it will be used if those rates are charged. However, the problem is obvious. The more subtle problem arises when the company incorporates the machine costs in the main test room cost center. The rates are higher,
