1995. Its central theme is that "adding manpower to a late software project makes it later." This idea is known as Brooks' law, and is presented along with the second-system effect and advocacy of prototyping. Brooks' observations are based on his experiences at IBM while managing the development of

Man-Month: Essays on
Software Engineering
The 'Man-Month' The
second fallacious
thought mode is
expressed in the very
unit of effort used in
estimating and
scheduling: the man-
month. Cost does indeed
vary as the product of
the number of men and
the number of months.
Progress does not.
