The Lord is the Spirit as the reality of all spiritual things. THE SEVEN SPIRITS FOR GOD'S MOVE ON THE EARTH. When the Trinity is referred to in the beginning of Revelation, the last book of the Bible, the Spirit is called "the seven Spirits who are before His throne" (1:4). The seven Spirits are moving and speaking in the church today.

THE HOLY SPIRIT BEING THE REALITY OF ALL SPIRITUAL THINGS

The Spirit is called the Spirit of reality because whatever the Father in the Son is and whatever the Son is, is realized in the Spirit. The Spirit is the realization of what God the Father and God the Son are. God the Father is light, and God the Son is life. The reality of this light and life is the Spirit.

THE SPIRIT OF REALITY - Witness Lee

The reality of the Spirit is quite different from what natural minded people imagine. People have grasped that there are other "dimensions" and have even come up with the term "multiverse", however these ideas only faintly approximate the truth of Heaven. The number seven is of special significance in the scriptures.

We are living in a virtual reality. Nothing we see is real. All that we can physically see or touch in this world could be gone in a second. The Holy Spirit, however, is eternal.

Simply put, spiritual reality is what one touches through the Holy Spirit. Only what we touch through the Holy Spirit is living and real. Any work that a Christian has apart from the Holy Spirit is not real. His work can never replace the real thing in God's eyes.

The Holy Spirit and Reality - by Watchman Nee

Anyone who reflects should be able to see that the real person is not the physical body, but the spirit. But for sensual men, ideals, loves, principles, and truths are considered less real than natural things, such as money, fame, and power in the world.

Spiritual Reality - SwedenborgStudy.com

The imprint of spiritual reality does not exist in time, it exists deep in knowing, and if we claim our knowing, a moment is more than enough for eternity to make a lasting impression. This is how powerful spiritual reality can be.

The concept of the spirit has its reality in the spirit. If this reality is in completed identity with that concept as the knowledge of the absolute idea, then the necessary aspect is that the implicitly free intelligence liberates itself for its concept, in order for it to be a shape worthy of it.

The Christian life seemingly involves many outward matters and things, such as baptism, the breaking of bread, worship, praise, prayer, forgiveness, humility, and love for one another. As such, it is easy to focus on these things but miss the spiritual reality behind them. This reality is the Holy Spirit. Apart from the Holy Spirit, who is the Spirit of reality, all of these things, no matter how faithfully practiced, are merely outward conduct that is devoid of any real inward spiritual content.

Although we were created, we were also given a unique to this world self will. Being that we have this self will to decide to live how we would like, it is a continual, recurrent, conscious moment to moment decision to live for the purpose of the creators intention for making us. Its that simple, its that important, and we are otherwise pointlessly lost in space here unless we simply find that purpose and submit to it. These works provide a supplemental and functional life guide on how to experience the love and compassion of God full force while still being entombed in these bodies on the face of this physical realm that we call Earth. The narrow road may be less traveled and difficult, but the way of truth sets you free and is fulfilling. (Ref to Matthew 7:14) Take on my yoke, my yoke is easy. This book is a survey of what I have learned via reading books psychographed by Spiritist mediums, other mediums, observing during Spiritist medium's meetings, receiving messages from spirits and talking to other Spiritists. This book is not meant as a documented exhaustive study of all available materials from the other side. In my other books, I quote from spirit sources and explain what was told to us via Spiritist mediums. In my accumulation of fourteen books, I have written to date, I have usually adopted the process of quoting a pertinent message and then expounding and expanding upon it, with other spirit sources and my analysis. All with a bibliography and footnotes. In this book I shall take a more informal approach. It shall be more of a survey and explanation about the spirit realm I place before you. A conversation backed by years of study and research, but nevertheless, largely my own opinion, after sifting through a myriad of sources and experiences. The Spirit Realm - Spiritism has Revealed the Reality of Our Existence is divided into four sections: 1. The Organization of the Universes 2. The Residents of the Universes 3. Spiritual Ascension 4. The Future I do not pretend that I am accurate. I believe I am directionally correct, and only that. We are so immature, spiritually young, and generally ungifted that we are incapable of real understanding of the spirit realm. But this does not stop me from offering my own thoughts of what I believe is the certainty of our existence. The true reality in which we live, die, and live again for eternity, until we no longer need to incarnate in a physical body, is far beyond what most of us can imagine. The laws of physics mostly do not apply. The concept of time and distance are altered, and the landscape itself reacts to directives from high spirits and collective thoughts. Spirits are logical constructs, who for training purposes inhabit temporary physical bodies in order to learn

required and valuable lessons to alter their personalities for the better. All of this sounds beyond the realm of plausibility. But, as the spirit universes unfold, the logic becomes apparent and our place within it fully explains the chaos and inequalities of our planet and of our ups and downs of our life. With understanding and knowledge comes wisdom and tranquility. Once you start the journey of discovery of who you truly are and the real worlds you shall exist in, a doorway of light opens and begs you to step in to feel the love that surrounds you during your ascent to become a pure spirit.

Noted Chinese pastor/writer Watchman Nee presents his insights on the nature of spiritual reality in the interest of helping believers discriminate between mere appearance and the real.

An examination of our consciousness's ability to pass between dimensions, both in life and after death, and how to communicate with spirits • Reveals that all beings exist simultaneously in the material dimension and in the soul hyperdimension and that our consciousness transcends death • Provides evidence that the deceased keep in contact with their loved ones and are able to visit them as apparitions, give them advice, and protect them • Offers rigorous scientific analysis of paranormal occurrences, including evidence of life after death, house spirits, near-death and out-of-body experiences, and communication with the souls of the deceased In this exploration of consciousness, after-death communication, and the validity of near-death and out-of-body experiences, Chris H. Hardy, Ph.D., a former researcher at Princeton's Psychophysical Research Laboratories, reveals that all beings exist simultaneously in the material dimension and in the soul hyperdimension. During life, we can access the soul hyperdimension through heightened states of consciousness and dreams. After death, we cease to physically exist, but our consciousness continues on in the hyperdimension as a living soul, a complete personality able to perceive and even affect the material world. Through rigorous scientific analysis of psi experiences and surveys, the author shows that the deceased keep contact with the living by visiting them as apparitions, protecting them from harm, and even interceding to solve family problems or resolve their own unfinished business. She details her own psi and spiritual experiences, such as interactions with a house spirit, clairvoyance in lucid dreams, and her decades of communication with the souls of the deceased, including her own parents and scientific geniuses, and provides empirical evidence to support their reality. Moreover, Hardy offers tested methods for gaining access to the soul dimension and explores what can be accomplished there, including communicating with those who exist beyond our own matter world. Sharing her breakthrough understanding of the soul dimension as a hyperdimension pervading the universe, where our consciousness lives on after physical death, Hardy shows that we are all transdimensional beings and that the living souls of the spirit dimension welcome our interaction.
