The Beretta 92 FS was one of four (or five, if you count the RWS C225) CO2 powered, pellet shooting semi-auto replicas introduced by Umarex between 1996 - 2000. All shared similar mechanical design, with a rotary pellet holder concealed within a cast zinc alloy body with a moveable front part of the slide which gives access to the loading area.

Beretta's web pages for both "their" M9_22LR and this conversion kit make no mention that you'll be buying an Umarex product. I had hoped to proudly match this with my fairly unique 'Model 92/96 Combo' that came with 2 slides, barrels and magazines, all Italian made, but the .22 conversion will end up being its red-headed stepchild.

In 1990 the Beretta M9 replaced the venerable Colt 1911 as the main pistol of choice for the US Army. At the time the decision was controversial particularly because it was perceived that a smaller caliber weapon such as the Beretta would lack the necessary stopping power and range in comparison to the .45 caliber Colt. The situation was not helped by the rumour that the adoption of this Italian designed pistol was in exchange for the creation of US missile bases within Italy. Nonetheless, the Beretta, although not a perfect pistol, has since proved many of its detractors wrong with widespread use in Iraq and Afghanistan. Written by a leading pistol expert who currently trains US Special Forces in the use of this weapon, this book is an honest appraisal of the successes and failings of the Beretta design. The volume traces the Beretta designs, which preceded the M9 as well as its use on the battlefield, including the impact it has had on close combat training due to the larger magazine capacity. It also details the adoption of the Beretta by US law enforcement agencies and the impact this has had. This is a fascinating history of a classic pistol and its future use.

This revised 5th Edition, now expanded to over 400 pages in a larger 8 x 11 in. format, contains over twice as much information as previous editions. Featured in this 5th Edition are hundreds of digital images for most popular makes and models, making identification much easier. The Blue Book of Airguns contains both up-to-date 2005 airguns pricing information and detailed technical data on both today's high tech offerings and older, discontinued models. This includes domestic, foreign, and military airguns, modern commemoratives, and major trademark antiques! Also included are some valuable editorials by Dr. Robert Beeman and noted airgun journalist Tom Gaylord, as well as an extensive pictorial glossary. The 5th Edition Blue Book of Airguns contains more useful and up-to-date information than any other single airgun publication.

The fascinating story of the American inventor and manufacturer who perfected the revolver Samuel Colt (1814-1862) first patented his "Colt" revolver in 1835 and thereby redefined the architecture of handguns. This stunning book is the first to present in detail the evolution of his most famous invention and to document the unsurpassed Colt firearms collections held by the Wadsworth Atheneum. Colt designed his revolvers with an artistic sensibility--paying particular attention to form and beauty and juxtaposing colors and finishes to heighten the visual effects. He was also one of the first American manufacturers to secure celebrity endorsements and to commission paintings by renowned artists like George Catlin to promote his arms. Colt's standards for excellence, industrial foresight, and quest for market domination are explored in light of primary documents that reveal his constant battles to protect his patents. Essays discuss Colt's personal collection of historic firearms as well as the memorial collection of Colt-manufactured firearms, the relationship between art and commerce as they pertain to the inventor's career, and his international celebrity. Richly illustrated and beautifully produced, this volume presents the artistry of the firearms that Colt worked so diligently to perfect--as well as his promotional abilities that made a tremendous impact on American culture.

"It rips to shreds every argument of the anti-gun crowd and has opened my eyes to the mentality of those people." Jan Morgan, FOX News Analyst/Certified NRA Instructor Dan Wos explains the tactics and strategies of Anti-2nd Amendment Radicals and uncovers the motivation behind their mission to vilify guns and gun owners.

Fabbrica d'Armi Pietro Beretta, S.p.A., the oldest industrial firm and the oldest gunmaker in the world, launches its 475th anniversary with the publication of this lavish history and celebration of a unique world of Beretta firearms. Beretta remains under the stewardship of its founding family and reigns as one of the few international brands symbolic of unsurpassed quality. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Provides step-by-step instructions and manufacturer specifications for all aspects of firearms maintenance while sharing accompanying tips for a wide range of firearms categories.
